**2020  
Proposal for Pond Management  
Stonebridge HOA**

**Proposal Summary**

Aquatic Ecosystem Consultants, LLC hereby proposes a Pond Management Program for the purpose of treating filamentous algae and pondweeds in the pond located at Stonebridge HOA. Aquatic Ecosystem Consultants, LLC hereinafter will be called Consultant. Stonebridge HOA, who declares they have control over the body of water in which pond management procedures will be implemented, hereinafter will be called Owner.

**Management Program Guidelines**

Algae and plant control materials employed in the program will be applied using the Consultant's distribution equipment. The Consultant will provide all materials and labor for the outlined program.

The materials employed in the program for vegetation control will be registered for aquatic usage with the Environmental Protection Agency and the State of Missouri.

The Consultant will obtain and process all necessary permits for the treatment of said body of water.

The Consultant will conduct treatments in a professional manner and all treatment material will be applied in compliance with the manufacturers' guidelines for each product.

Treatments will be performed in strict adherence with regulations set forth by the State of Missouri and will be conducted by a Certified Commercial Applicator.

Prior to treatments requiring restrictions on water usage, the Owner will be responsible for notifying all potential water users that a treatment will be made and that restrictions will be placed on water usage.

The Consultant agrees to work on the proper management of the pond and will be available to consult on areas of pond management that are of concern to the Owner.

The Consultant will make scheduled treatments every 2-4 weeks during the summer (April through September) for filamentous algae and pondweeds.

**Program Schedule**
